## About PIMCC

**T**he County Commissioners Association of Pennsylvania (CCAP) has offered counties a way to help control the expense of providing necessary medical care, while still delivering quality medical care.

**PIMCC** – Prison Inmate Medical Cost Containment is a medical cost management and educational program dedicated to assisting county jails with the cost effective management of all costs relating to jail inmate medical expenses. PIMCC's overall goal is to train, educate and provide a quality managed care program that allows the county to choose a unique medical cost saving program. Since its implementation PIMCC has offered participating counties a unique service that has resulted in new policies and procedures, improved negotiated contracts with medical providers, and cost savings on a variety of medical services, especially on the cost of inmate medications (prescription and nonprescription).

**PIMCC** – Public Institution Medical Cost Containment is available to other county facilities. In June 2002 the PIMCC Board approved the availability for a Public Institution Medical Cost Containment Program and in 2007 expanded the Program to privatized prison facilities in the Associate Program. The PIMCC Associate Program will provide a la carte services to counties that want medical audit and contract management services.

**Cost Management Plus, Inc.**, in conjunction with CCAP Insurance Programs, is the primary administrator for the PIMCC Programs.
