| TOTAL | | | 11,952,011 |

Note 1. The registration counts **exclude** vehicles that are exempted from fees where this can be identified by indicators on PennDOT's vehicle database; those vehicles that can't be identified are not excluded. Vehicles are exempted by the following Sections of Title 75:

- Title 75 Section 1901(a), 1901(b) and 1901(c) – **Exemption of persons, entities and vehicles from fees.**
 - Title 75 Section 1302 – **Vehicles exempt from registration.**
 - Title 75 Section 1335(c) - **Registration plates for manufacturers and dealers.**
- (Refer to the specific Sections for all exemptions.)

Note 2. There is no way to determine all exempt vehicles from the vehicle data base; for example, special organizations such as the boy scouts must re-certify each year that their vehicles are exempt.

Note 3. The registration counts represent the vehicles on the Department vehicle registration system at a specific time (in this case December 31, 2019). This data changes daily as people purchase and sell vehicles, and as they move from one address to another.
