

2026 TECHNOLOGY VENDOR PARTNERSHIP PROGRAM

The Technology Vendor Partnership Program provides opportunities for IT vendors to expand their market reach and engage local government IT professionals across the 67 counties of Pennsylvania. These engagements benefit CCAP and the counties to better understand current markets trends, products, pricing, services, and resources that are applicable to the uniqueness of county government.

All levels include a Directory of County IT Directors/CIOs, recognition at all IT Quarterly Meetings, company name/logo displayed on CCAP website & in technology communications, along with other special meeting & networking opportunities.
